## Special Issue on "Mesoproterozoic Supercontinent"

**Editors: John J.W. Rogers and M. Santosh**

Mesoproterozoic supercontinent: introduction

<i>John J.W. Rogers and M. Santosh</i> .....	3
Configuration of Columbia, a Mesoproterozoic supercontinent	
<i>John J.W. Rogers and M. Santosh</i> .....	5
The Purana basins of southern cratonic province of India - a case for Mesoproterozoic fossil rifts	
<i>Asru K. Chaudhuri, Dilip Saha, Gautam K. Deb, Sarbani Patranabis Deb, Mrinal Kanti Mukherjee and Gautam Ghosh</i> .....	23
The hypothetical Mesoproterozoic supercontinent Columbia: implications of the Siberian-West Laurentian connection	
<i>J.W. Sears and R.A. Price</i> .....	35
Breakup of a Paleoproterozoic supercontinent	
<i>Kent C. Condie</i> .....	41
Deformation pattern of the NW terrane boundary of the Eastern Ghats Mobile Belt, India: a tectonic model and correlation with Antarctica	
<i>T.K. Biswal, Bimal Biswal, Supriyo Mitra and Maitry Roy Moulik</i> .....	45
Nature of crustal tri-junction between the Eastern Ghats Mobile Belt, Singhbhum craton and Bastar craton around Paikmal, western Orissa: structural evidence of oblique collision	
<i>S. Bhattacharya</i> .....	53
A Mesoproterozoic supercontinent: evidence from the Indian shield	
<i>V. Vijaya Rao and P.R. Reddy</i> .....	63
Early to Middle Proterozoic construction of the Mojave province, southwestern United States	
<i>Drew S. Coleman, Andrew P. Barth and Joseph L. Wooden</i> .....	75
Archean and early Proterozoic events along the Snowbird Tectonic Zone in northern Saskatchewan, Canada	
<i>Christopher F. Kopf</i> .....	79
Development of the North China craton during the late Archaean and its final amalgamation at 1.8 Ga: some speculations on its position within a global Palaeoproterozoic supercontinent	
<i>Simon A. Wilde, Guochun Zhao and Min Sun</i> .....	85
The late Paleoproterozoic orogeny in the North China craton	
<i>Jin Wei</i> .....	95
The fit between Amazonia, Baltica and Laurentia during the Mesoproterozoic assemblage of the supercontinent Rodinia	
<i>Georg R. Sadowski</i> .....	101
A statistical approach to defining Proterozoic crustal provinces and testing continental reconstructions of Australia and Laurentia – SWEAT or AUSWUS?	
<i>C. Burrett and R. Berry</i> .....	109
A group of rifting events in the terminal Paleoproterozoic in the North China craton	
<i>Lu Songnian, Yang Chunliang, Li Huaikun and Li Humin</i> .....	123

(Contents continued on inside back cover)

(Contents continued from outside back cover)

Mid-Proterozoic plume-related thermal event in eastern Indian Craton: evidence from trace elements, REE geochemistry and Sr – Nd isotope systematics of basic-ultrabasic intrusives from Dalma volcanic belt <i>A. Roy, A. Sarkar, S. Jeyakumar, S.K. Aggrawal and M. Ebihara</i> .....	133
Anorthosites, granulites and the supercontinent cycle <i>Amalbish Mukherjee and Subhasish Das</i> .....	147
The Mesoproterozoic supercontinent Atlantica in the Brazilian shield – review of geological and U–Pb zircon and Sm–Nd isotopic evidence <i>Léo Afraneo Hartmann</i> .....	157
Rapid growth of continental crust between 2.2 to 1.8 Ga in the South American platform: integrated Australian, European, North American and SW USA crustal evolution study <i>Kei Sato and Oswaldo Siga Junior</i> .....	165
Main stages of the development of the sedimentary basins of South America and their relationship with the tectonics of supercontinents <i>Benjamim Bley de Brito Neves</i> .....	175
Evidence for early Mesoproterozoic (and older?) crust in the southern and central Appalachians of North America <i>Paul D. Fullagar</i> .....	197
Mid-Proterozoic supercontinent Rodinia: its basis and extent <i>N. Rast</i> .....	205
Paleomagnetic evidence for a Paleo-Mesoproterozoic supercontinent Columbia <i>Joseph G. Meert</i> .....	207
<b>Regular Papers</b>	
High $\delta^{13}\text{C}$ carbonates from the Songpan-Garzê Orogenic Belt: implications for correlation of Neoproterozoic carbon isotope anomalies across the Yangtze platform, China <i>Minghua Huang and Ian Buick</i> .....	217
Evolution in basin fill style during the Mesozoic Gondwana continental break-up in the Godavari triple junction, SE India <i>G. Lakshminarayana</i> .....	227
Geochemical characteristics of Archean clastic metasediments of Gadag Gold Field, southern India: implications for provenance and tectonic setting <i>A.G. Ugarkar and R.C. Nyamati</i> .....	245
