Towards new horizons

M. Santosh 447**Regular Papers**

Edge tectonics (trench rollback, terrane export) of Gondwanaland-Pangea synchronized by supercontinental heat

J.J. Veivers 449

A quantitative structural study of late Pan-African compressional deformation in the Central Eastern Desert (Egypt) during Gondwana assembly

M.M. Abdeen and R.O. Greiling 457

Titanosaur (dinosaurs: sauropoda) osteoderms from the Maastrichtian of Uberaba, Minas Gerais State, Brazil

Thiago S. Marinho and Carlos Roberto A. Candeiro 473

Evolution of heterogeneous mantle in the Acampamento Velho and Rodeio Velho volcanic events, Camaquã Basin, southern Brazil

Delia del Pilar M. de Almeida, Rommulo V. Conceição, Farid Chemale Jr., Edinei Koester, André W. de Borba and Karla Petry 479

Multiple foliations defined by different sillimanite crystal habits, partial melting and the late metamorphic development of the Cannington Ag-Pb-Zn deposit, Northeast Australia

Hyeong Soo Kim and Tim H. Bell 493

A middle Ordovician drowning unconformity on the northeastern flank of the Okcheon (Ogcheon) Belt, South Korea

In-Chang Ryu, Chang Whan Oh and Sung Won Kim 511

Sr, Nd and Pb isotopic systematics of the Cenozoic basalts of the Korean Peninsula and their implications for the Permo-Triassic continental collision boundary

Kye-Hun Park, Jun-Beom Park, Chang-Sik Cheong and Chang Whan Oh 529

Genetic implications of two different ultramafic rocks from Hongseong area in the southwestern Gyeonggi Massif, South Korea

Jieun Seo, Seon Gyu Choi, Chang Whan Oh, Sung Won Kim and Suck Hwan Song 539

Geology, geochemistry and tectonic significance of Mafic-ultramafic rocks of Mesoproterozoic Phulad Ophiolite Suite of South Delhi Fold Belt, NW Indian Shield

M. Shamim Khan, T.E. Smith, M. Raza and J. Huang 553

Cooling history of the Puttetti alkali syenite pluton, southern India

T. Miyazaki and M. Santosh 567**GONDWANA NEWSLETTER NO. 25****Correspondence**

Spherules from the late Cretaceous phosphorite of the Fategarh Formation, Barmer Basin, India

S.C. Mathur, S.D. Gour, R.S. Loyal, A. Tripathi and M.S. Sisodia 579

Aftershock propagation characteristics during the first three hours following the 26 December 2004 Sumatra-Andaman earthquake

Sujit Dasgupta, Basab Mukhopadhyay and A. Acharyya 585

Remnants of early continental crust in the Amgaon Gneisses, Central India: geochemical evidence

Nishchal Wanjari, Deepanker Asthana and V. Divakara Rao 589

Petrological and geochemical constraints on the evolution of the alkaline complex of Koraput in the Eastern Ghats Granulite Belt, India

S. Bhattacharya and Rajib Kar 596

C-isotope composition of carbonates from Indravati Basin, India: implications for regional stratigraphic correlation

Anil Maheshwari, A.N. Sial, Rajeeva Guhey and V.P. Ferreira 603

Run-up and inundation pattern developed during the Indian Ocean tsunami of December 26, 2004 along the coast of Tamilnadu (India)

J.P. Narayan, M.L. Sharma and B.K. Maheshwari 611

Ultra-high excess argon in kyanites: implications for ultra-high pressure metamorphism in Northeast Japan

T. Itaya, H. Hyodo, K. Uruno and M.U. Mikoshiba 617**Discussion**

Feldspar alteration and diagenetic characteristics of the Parsora Sandstones, Son Basin, India – comment

Prodip Dutta 621

Feldspar alteration and diagenetic characteristics of the Parsora Sandstones, Son Basin, India – reply

Babar Ali Shah and D.N. Bandyopadhyay 624**Conference Reports**

19th Himalaya-Karakoram-Tibet Workshop in Niseko, Japan, July 2004

Masaru Yoshida, S.M. Rai, S. A. Rashid, Tetsuya Sakai 626

International Seminar on Natural Disaster Mitigation and Issues on Technology Transfer in South and Southeast Asia – JICA Regional Seminar

Masaru Yoshida and Bishal N. Upreti 629

Field Workshop on Geology and Natural Hazards along the Kaligandaki Valley, Central-West Nepal Himalaya

M. Yoshida, Y. Konagaya, Y. Sukanuma, T. Ito and B.N. Upreti 631**Book Reviews**

Magmatism in India through time

T.M. Mahadevan 634

Random harvest (biographical sketches)

B. Mahabaleswar 636**New Book Announcement**

Exploration and research for atomic minerals

K.D.P. Singh, D. Narasimhan, P. Rajasekaran and Rajan B. Jain (Eds.) 637**Gondwana Research Referees** 638**Author Index** 640
