

# ***Gondwana Research Special Issues***

(More details at:

<http://www.sciencedirect.com/science/journal/1342937X>)

## **Tectonic evolution of Tibet and surrounding regions**

Volume 21, Issue 1 (2012)

## **Precambrian geology and tectonic evolution of the North China Craton**

Volume 20, Issue 1 (2011)

## **Island Arcs: Their role in growth of accretionary orogens and mineral endowment**

Volume 19, Issue 3 (2011)

## **Special Section: The South and East Facades of Sundaland**

Volume 19, Issue 1 (2011)

**A Tribute to Miyashiro**

Volume 18, Issue 1 (2010)

**The Rheic Ocean: Palaeozoic Evolution from Gondwana and Laurussia to Pangaea**

Volume 17, Issues 2-3 (2010)

**Geodynamic processes and metallogenesis of the Central Asian and related orogenic belts**

Volume 16, Issue 2 (2009)

**Micro-chronology and evolution of the planet Earth**

Volume 14, Issue 4 (2008)

**Neoproterozoic - Early Paleozoic events in Southwest Gondwana**

Volume 13, Issue 4 (2008)

**The West Gondwana margin: Proterozoic to Mesozoic**

Volume 13, Issue 2 (2008)

**Precambrian Continental Growth and Tectonism**

Volume 12, Issue 3 (2007)

**Island Arcs: Past and Present**

Volume 11, issue 1-2 (2007)

**Tectonic Evolution of Korean Peninsula and Adjacent Crustal Fragments in Asia**

Volume 9, Issues 1-2 (2006)

**Crustal Structure and Tectonic Evolution of the Southern Granulite Terrain, India**

Volume 10, Issue 1-2 (2006)

**FORTHCOMING SPECIAL ISSUES OF GONDWANA RESEARCH**

**Western Gondwana**

**Precambrian North China Craton**

**Tectonics of Asia**

**Tectonics of North China Craton**

**Zirconology in crustal evolution**

**Early Earth**

**Ecosystem**

**Granulites and eclogites in geodynamics**

**Paleoenvironment**

**Intraplate tectonics**

**UHP-HP metamorphism**

**Craton formation and destruction**
